

Job Title : Frontend Developer - Vue.js & Dash Specialist
Skill : Vue.JS, DASH, Git, HTML, CSS etc
Location : Mumbai -Full Time
Experience: 5 to 10 years

About the Role:

We are seeking an experienced Frontend Developer with strong expertise in Vue.js and Plotly Dash frameworks. In this role, you will design, develop, and maintain interactive web applications and data visualization dashboards that deliver exceptional user experiences while effectively communicating complex data insights.

Key Responsibilities

- Design and develop responsive, high-performance web applications using Vue.js
- Implement responsive design principles to ensure cross-browser and cross-device compatibility
- Create interactive data visualizations and analytical dashboards using Dash
- Strong hands-on experience on HTML, CSS
- Collaborate with data scientists to integrate APIs and data services
- Participate in code reviews and contribute to technical documentation
- Stay current with emerging technologies and industry trends

Required Qualifications & Skills:

- 3+ years of experience with Vue.js framework and its core principles (components, props, state management)
- Experience with Plotly Dash for building data visualization applications
- Strong proficiency in JavaScript, HTML5, and CSS3
- Experience with Vue ecosystem tools like Vuex, Vue Router, and Vue CLI
- Knowledge of Python for Dash development
- Experience with RESTful APIs and data integration
- Familiarity with version control systems (Git)
- Strong problem-solving skills and attention to detail Preferred Qualifications
- Experience with advanced Vue.js features (composition API, custom directives, mixins)
- Knowledge of additional visualization libraries (D3.js, Chart.js)
- Experience with UI/UX design principles
- Familiarity with testing frameworks like Jest or Vue Test Utils
- Experience with build tools like Webpack, Vite, or Babel
- Knowledge of containerization technologies (Docker)
