

# πby3 Consulting Services Pvt. Ltd.

Empowering Businesses with Intelligent Cloud, AI and Data solutions

## ABOUT US

A cloud-first consulting firm empowering enterprises to accelerate digital transformation through AI, cloud computing and data analytics solutions

Innovation Suite  
**10+**

Cloud, Data & AI  
**200+** Certifications

Global Presence  
**India | US | Australia**

## INDUSTRIES WE SERVE

Pharma &  
Life Sciences

Finance  
& Banking

Retail &  
E-Commerce

Energy  
& Utilities

Insurance

# SUCCESS STORIES

## FinOps

We enhanced data flow efficiency through pipeline re-architecture and introduced FinOps-led cost governance, enabling the client to achieve **80% savings** in operational data processing costs

## Cloud Migration

Executed a large-scale migration of **6,000 workflows** and mappings from an on-premise legacy platform to Informatica Cloud and Snowflake, enabling cloud scalability and eliminating high on-prem maintenance costs with **98% validated data accuracy**

## Generative AI

Implemented fully automated GenAI infrastructure on AWS with IaC, CI/CD and integrated security scanning, delivering **60% faster deployment**, enhanced stability and consistent governance across all environments

## Cloud Data Modernization

We helped the client shift from a complex on-premise data warehouse to a fully automated **Snowflake** environment. Using **ADF, DBT** and  **$\pi$ -Recon**, we ensured seamless migration, enhanced performance, faster transformations and reduced cost of ownership

## $\pi$ Pillars

### Cloud Consulting & Delivery

Unlock speed and scale with tailored cloud adoption strategies, migrations and managed cloud services

### GenAI & Data Analytics

Innovate with Generative AI, predictive modeling and data-driven insights that drive smarter decision-making

### Cloud Finops

Optimize cloud spend and improve ROI through visibility, accountability and automation in financial operations

### Application Modernization

Re-engineer legacy systems into agile, scalable platforms with a modern application stack and containerization

### IT Automation

Streamline operations, improve uptime and accelerate productivity with intelligent automation frameworks

# OUR ACCELERATORS

## $\pi$ FinOps

Reimagine cloud spend - turn visibility into value with real-time insights, smart optimization and FinOps that fuel performance

## Gen AI

A single-click enterprise solution for rapid GenAI adoption. Build, deploy and scale AI assistants and copilots tailored to your domain

## $\pi$ Ingest

Seamlessly connect and transform data across databases, enterprise systems, social platforms and cloud services through ready-made integrations

## Robopod

Streamline Kubernetes deployments with automated workflows that accelerate release cycles while maintaining complete infrastructure control

## $\pi$ Recon

Unify disparate data systems with automated validation to ensure quality, consistency and peak performance across migration projects

## SnowDash

Smart observability dashboard for Snowflake usage, costs and performance analytics

## DataMig

End-to-end data migration accelerator for secure and smooth cloud transitions

## $\pi$ SDCA

Generate realistic, customizable synthetic data that preserves statistical properties while ensuring complete privacy compliance

**Our proprietary solutions enable faster, smarter decision making for every business function. Designed to accelerate outcomes with precision and impact**

# WHY CHOOSE US

## Observability & LLMops

Deploy, monitor, optimize AI apps with lifecycle management and insights

## Data on cloud

Centralize, secure and optimize enterprise data with scalable cloud infrastructure

## Cloud Maturity

Assess, roadmap, accelerate cloud transformation with frameworks and modernization strategies

## AI & Data Analytics

Transform raw data into intelligent insights with advanced AI-driven analytics

Deep Industry Expertise

Data-Driven Growth Strategies

Full-Stack Cloud Excellence

Rapid, Scalable Transformation

Future-Ready Innovation

## OUR EXPERTISE

Let's Build the *Future Together*
